# Abstract

Kape block Chain is revolutionizing the digital World by bringing a new perspective to security efficiency and stability of systems and data. It has promise as an approach to developing systems for a number of applications within cyber security.

This Platform will enable the users to purchase and sale products and services with cost efficient and zero transaction fees in international market, this system will provide easy and faster transaction along with more profitable transactions.

# KAPECHAIN DISCLAIMERS

This document is a whitepaper representing current and future developments of Kape Chain platform and our ecosystem ,this white paper is working document and is subject to changes and errors. Any purchase or use of Services from Kape Chain create a binding agreement between the Kape Chain and the user/purchaser. Block chain Technology has been increasingly adopted in recent years and will certainly be world wide in the near future. Keep chain is a P2P digital currency that enables instant and zero cost payments to anyone in the world. This technology secures the network an empowers individuals control their own financial transactions.

# Introduction

Block Chain is a digital currency designed to work as a medium of exchange through a computer network that is not reliant on any central authority, such as government or bank to uphold or maintain it. Kape's Solution is cost effective, easy to understand and capable of delivering the expectations of passive gain generations of a wide and ever-growing pool of digital assets holders while curtail risks. By using Double Native Layer(L1) kape coin, the user are able to access a wide variety of decentralized digital assets management services with a computerized data base using strong cryptography to secure transaction records

# Motive of Kapechain

The main motive behind kape chain technology is to provide zero transaction fee in the crypto world. In the current scenario shopping in the international market is difficult due to the multiple issues related to the transaction cost in the centralized payment system. Kape block chain will act as an investment pool for many people to earn more and more return and profits of the holiday of the block chain in the future, with this network investors can earn more and more benefits profit in return for holding them as assets. Kape chain is a transaction based cryptocurrency for dealing different commodities and services around the global market to reduce the burden of different fluctuating transactions charges for shopping in the international market. .

# Why Choose **KAPE Token**

Kape chain is a remarkable cryptographic achievement and the ability to create something that is not duplicable in the digital world

- 1. 0 Transaction fees** - We are not charging any cost for any transaction, The whole world is free from transaction charges.
- 2. Faster Settlement** - An efficient and convenient trading system with rapid deposit and withdrawal service, With 1 million transaction every second.
- 3. Secured Transaction** - Kape Block Chain Protects your funds both centralized and decentralized methods.

**4- Reliability** - Kape Block Chain is ideal for delivering the information stored on an immutable ledger that can be accessed only by permissioned network member.

## **Kape Chain Technology :**

Kapechain provides tokens for the users and it is the first block chain providing zero transaction fee with its higher performance it covers one million of transaction every second and working with advance technologies in the international market

**1- Distributed ledger** - All network participants have access to the distributed ledger and its immutable record of transactions. With this shared ledger, transactions are recorded only once, eliminating the duplication of effort that's typical of traditional business networks.

**2- Immutable Records** - If a transaction record includes an error, a new transaction must be added to reverse the error, and both transactions are then visible. No participant can change or tamper with a transaction after it's been recorded to the shared ledger.

**3- Greater security** - all validated transactions are immutable because they are recorded permanently. No one, not even a system administrator, can delete a transaction.

# Application of Kape Block chain

**1 - Enhanced Security** - Kape block chain is better than any other record – keeping system when it comes to security by all standards. Information is stored across a network of computers rather than a single server, making it difficult for hackers to view data.

**2 - Great Efficiency** - Traditional Paper work are time consuming and prone to human error. Kape block chain can streamline and discipline these legacy methods and remove the risk of mistake.

**3 - Cost Reduction** - First block chain with zero transaction fees in the metaverse, kape block chain eliminates the need for third-parties it saves the enormous cost.

# How it works ?

Kape block Chain performs user transaction without any third – party intermediatry .

- An authorized participant inputs a transactions, which must be authenticated by the technology.
- That action creates a block that represents that specific transaction or data.
- The block is sent to every computer node in the network.
- Authorized nodes verify the transaction and add the block to the existing block chain.
- The Update is distributed across the network, which finalizes the transaction.

# TOKENOMICS

TOKEN NAME	KAPE TOKEN
TOKEN SYMBOL	KAPE
INITIAL VALUE	1 KAPE =0.00005\$
TYPE	BEP20
MAXIMUM SUPPLY	10 Billions Tokens
PUBLIC SALE	30%
PRIVATE SALE	35%
REWARDS	15%
FREE ARDROP	15%
TEAM	5%
CONTRACT	0xc62e15f6b3026be54d892230 59788c76dd15d7f7

**3 - Wealth building is a Marathon - Not a sprint:** We don't believe in day trading or speculating as viable ways to build long-term wealth, so we build Kape chain to do that. Kape chain can be a great companion to other investing apps, but if you're only looking to day trade, you'll have better luck elsewhere.

**4 - Fees and expenses in the investment industry are too high -** We're committed to driving them to zero through the smart and innovative use of technology and automation. Every dollar you don't pay in fees is another dollar in your pocket, to spend or further compound for your future.

# OUR VISION:

The main vision of Kapechain is to provide zero transaction fee and does not fluctuate from country to country. Kape block chain aims to cover one million of transaction every second , Kapechain is a global digital cryptocurrency that you can use to purchase or sell from any country or anywhere in the world. It all costs zero transactions than a traditional bank per transaction and no currency exchange is required.

# We Believe

**1- Finance is like fitness** - There is no magic pill or button that will give you the results you want quickly. You need a plan and you need to be diligent about following it to make long-lasting change. Following a committed approach of buying, regularly investing in, and holding ownership of a diverse and balanced set of investments for a long period of time is one of the best ways to wealth.

**2- The Hope for a Better World** ape block chain tech have the potential to advance more than just the world of finance. Kape chain have been described as a transformative technology that could revolutionize a number of industries.

# ROADMAP

Kape block chain platform is aiming to launch ICO with the better upgradation of Block chain network. Since kape block chain technology is relatively new, there is need to research potential application in various markets.
